

A global supplier of bulk materials handling solutions

Guttridge Ltd is one of the UK's leading manufacturers of bulk materials handling solutions, and provides a comprehensive range of conveyors and associated equipment for solids transport. With an established global customer base and a reputation for product quality and excellent customer support, the company is driving growth across all the markets it serves.

Our offices in Riyadh, Jeddah and Dammam, Saudi Arabia, provide direct sales and support to customers across the Middle East and North Africa with:

- **Turn key materials handling projects**
- **Single machines for specific duties**
- **A comprehensive spares service for all conveying equipment**

Unrivalled application experience, comprehensive design expertise and a state-of-the-art manufacturing facility make Guttridge a strong, responsive and trusted partner for all materials handling projects – whatever the scale, across the globe.

Conveying products...

Guttridge serves all industries which need to convey solid

materials, handling powders, pellets, grains, lumps and granules through to waste sludge and recycled streams such as glass cullet and shredded rubber. Conveying grain, food, animal feeds and pharmaceuticals to sand,

cement, aggregates and minerals, clients range from global multinationals to local farmers. The company has over 50 years of bulk materials handling experience which it draws upon to engineer right first time solutions for every application.

...efficiently and reliably

Every Guttridge machine is designed and manufactured to meet customer needs for reliability, ease-of-maintenance, longevity and automated monitoring. At its large modern factory the company has:

- sophisticated powder testing capabilities
- the latest 3D design software
- computerised production management systems
- state-of-the-art machinery such as CNC laser cutters and press brakes

Tight control of the whole sales, design and manufacturing operation ensures consistent delivery to the highest standards.

Peter Guttridge – Chairman

A Chartered engineer with over 30 years of experience with the company, extensive knowledge of bulk materials handling from every aspect, including applications, sales, mechanical design, and manufacture and after sales customer support.
